

USAGE FOR THE ÜBERLISS BOND TREATMENT

The Überliss Bond Regenerator does **NOT** affect processing time. **DO NOT INCREASE THE VOLUME OF DEVELOPER.**

Attach the enclosed dose dispenser to the Bond Regenerator bottle. This will help ensure accuracy when mixing the Überliss Bond Regenerator.

FOIL HIGHLIGHTS

1. Mix powder lightener and developer together first, gently add the Überliss Bond Regenerator to pre-mixed lightener.
 - A. 1 oz (30g) developer, 1/2 oz (15g) or 1 scoop of lightener, add 1/8 oz (3.75mL) of Überliss Regenerator.
- OR
- B. 2 oz (60g) developer, 1 oz (30g) or 2 scoop of powder lightener, add 1/4 oz (7.5mL) of Überliss Regenerator.
2. After highlights have been processed, rinse and shampoo hair with the Überliss Bond Shampoo (Sulfate-Free).
3. Towel dry hair thoroughly. Apply Toner now if applicable. You may add Überliss Bond Regenerator to your Toner, according to the Color and Toner directions. After processing, rinse Toner from hair.
4. Towel dry hair and apply Überliss Bond Amplifier from roots through ends. Comb through to ensure even saturation.
5. Leave on hair for a minimum of 10 minutes. For damaged hair leave on for 20 minutes.
6. Rinse Überliss Bond Amplifier. Style as usual.

The **Überliss Bond Treatment** is composed of the **Bond Regenerator, Bond Shampoo, Bond Amplifier** and the **Bond Sustainer**. These products work together to retain hair strength and integrity during color processing and lightening with conventional products. Our system is designed to regenerate bonds that are broken during processing, creating fortified hair with strong, durable, & healthy fibers. Learn about the techniques, tips and best use of our **Überliss Bond** products in your color services.
